

SPECIFICATIONS

Japanese Pharmacopoeia

Anhydrous Sodium Sulfate

Item	Unit/Symbol	Specified value
Content (Na ₂ SO ₄) (after drying)	%	Not less than 99.0
Description	—	To comply with the monograph (See note below)
Identification (1)	—	To pass test
Identification (2)	—	To pass test
Purity (1) Acidity or alkalinity	—	To pass test
Purity (2) Chloride	%	Not more than 0.036
Purity (3) Heavy metals	ppm	Not more than 10
Purity (4) Arsenic	ppm	Not more than 2
Loss on drying	%	Not more than 0.5
Blank below		
Note: Description Anhydrous Sodium Sulfate occurs as white, crystals or powder. It is odorless and has a salty and slightly bitter taste. It is freely soluble in water, and practically insoluble in ethanol (99.5).		

Notes:

1. “%” and “ppm” are in mass fraction.
2. Items, specified value, the test method and the terms in the list are based on the expression in the Japanese Pharmacopoeia. However, for the sake of testers' safety, some parts of the description test are omitted.
3. With revision of The Japanese Pharmacopoeia, some parts of the contents above may be updated without prior notification.
4. "(H)" stands for "Halal certified". The specifications are for both products of with and without "(H)". This Halal certification authority is the Japan Muslim Association (JMA).

Notice: This English Version of the Japanese Pharmacopoeia is published for the convenience of users unfamiliar with the Japanese language. When and if any discrepancy arises between the Japanese original and its English translation, the former is authentic.
